5. Discussion (Brittanye)

5.1 Final Version of the [2022 - 2025 SBCC Student Equity Plan](#)

The Student Equity Plan has gone to all of the committees it needed to go through. It's been shared campus-wide multiple times. The second reading for the Board of Trustees was Thursday. They did not have any additional comments or questions. The Student Equity Plan will be submitted for their approval on 11/10, Academic Senate on Wednesday. The Student Equity Plan will be submitted on time.

There were some final things we had to do between our last meeting and this meeting. We are starting to work on those deliverables that we talked about during our last meeting (i.e. creating a timeline and following up on SEA requests...).

Question: *At some point could this group have a discussion about how the SEA committee might be involved in the Student Services reorg, and how the new structure of Student Services is going to support what we've stated in the Student Equity Plan? It's important to be aligned in that way and to have the plan inform the reorg.*

Answer: *By the next meeting, yes, we're going to go by the plan in terms of following up and starting these conversations. Part of that will be reorganizing the committee structure and seeing how we follow up with what we stated in the plan, going from start to finish.*

During the next meeting when we have a timeline etc., as a committee, we'll set aside time to start discussing how we see ourselves participating with this work on campus as a committee. And where do we fit into the equity work and following up, making sure it gets done that way?

The meeting ended at 1:14 pm.
